Friends, this kit has 12 cards, envelopes and a lot of decorating material. Place the cards on a flat surface. Take one card at a time. Objective is best achieved when kids come out with their own innovative ideas of decorating cards. However, you can also refer to the images of decorated cards shown on the right-hand side. You can use any craft glue (not provided in the kit) for decoration. It is advisable to start decorating from the centre and then move outwards.

Please keep your workspace neat and organised. Once you have finished your activity for the day, keep the remaining objects back in the suitable place.
